

Tufts Health Care Institute, 1995-2016 Videos and Webcasts

THCI's videos, webinars and online modules addressed aspects of the health care system, to improve learners' knowledge and skills to practice in the changing environment.

These resources were created by THCI, independently or in collaboration with our educational partners. They were intended for use by health care professionals and, in some cases, consumers. Some were certified for continuing education credits.

They are listed here by topic categories. (Note: Some of these videos are available online as instructional materials from the THCI Mini-Rotation on the Health Care System.)

Health Care System Costs

- Restructuring the Health System and Controlling Spending
- Our Health Care System: Why Are Costs Rising and What Should We Do About Them?
- Health Care Cost Containment: Why Provider Incentives Matter
- Consumers: Can We Drive "Value" In Health Care?
- The Health Care Cost Debate: Stakeholder Interests and Policy Approaches

Health Care System Insurance

- The Evolution of the US Health Insurance System
- The Affordable Care Act: Evaluating the Rollout and Discussing Next Steps
A Panel Discussion
- The Affordable Care Act: An Update on the Rollout and Results, 2015
- The Affordable Care Act: Architecture and Innovations
- The Evolution of the U.S. Health Care and Financing System

Health Care System Redesign

- Transforming the Delivery of Care: Purchaser and Regulator Perspectives

Delivery System Redesign

- Practicing Medicine in a Changing Health Care Environment: Transforming the Delivery of Care
- Transforming the Delivery of Care: Systems of Care
- Accountable Care Organizations
- Re-forming Health Care: The Rationale and Realities of the Accountable Care Organization
- ACOs: From Managed Care to Accountable Care
- Providers and Quality
- Clinical Informatics: What is it and Why is it Important to Me
- Community Health and Health Disparities

Patient Care: Evidence-based Medicine

- Evidence-based Medicine: What Is It? What Does It Have to Do with Cost Containment?

Patient Care: Imaging

- Spine Imaging: Timing and Techniques for Lower Back Pain
- Outpatient Abdominal Imaging: Timing and Techniques for Diagnosis
- Doing the Right Thing: Diagnostic Radiology, Radiation Risk and Patient Safety

Public Health: Syndromic Surveillance

- Syndromic Surveillance: Definitions, Uses, Data Types, and Syndromic Groupings
- Evaluation of Syndromic Surveillance Systems; Data Analysis
- Syndromic Surveillance: Response Algorithms; Data Display/Websites
- Syndromic Surveillance: Privacy, Confidentiality, and HIPAA; Syndromic Surveillance: Strengths and Limitations; and Clinician Role
